

HKDSE Mathematics

Dear Parents,

FirstClass Academy is pleased to announce the commencement of its HKDSE Mathematics Workshop, introduced especially to support and equip our students with the necessary skill to excel in the new Senior Secondary Curriculum.

The Workshop is run throughout the year, and takes an in-depth review of the challenges the new syllabus poses giving current Form 4 students a thorough understanding of what is to come.

The first-year workshops are divided into four key units, covering some of the most important aspects of the compulsory Mathematics syllabus.

- ⊕ Each unit runs for four weeks, with two hours of lessons per week.
- ⊕ Maximum of six students per workshop to ensure quality tutor–student interaction
- ⊕ Resources based on similar international curriculums, tailored to the level of the student’s needs based on formative assessment of each student.
- ⊕ Each unit concluded with a minor assessment of student’s abilities for parental reference

Both new and existing students are welcome to apply for the workshops at any point in the year and the workshop will also be useful to current IGCSE Mathematics students. Please refer to the course outline for further details. For more information or general inquiries, please email help@firstclass.com.hk and state the Subject as “HKDSE Mathematics”. Thank you for your kind consideration.

Best Regards,
Angus Gallagher, Instructor

Workshop Information

Unit One: Algebra and Trigonometry

Fee: HK\$700 per student (including course material)

Duration: 4 hours of instruction

Schedule: Wednesday 20.00-21.00

(From September 6th 2010 onwards)

Unit Two: Circles and Locus

Fee: HK\$700 per student (including course material)

Duration: 4 hours of instruction

Schedule: **Wednesday 20.00-21.00**

Unit Three: Inequalities and Quadratic Equations

Fee: HK\$700 per student (including course material)

Duration: 4 hours of instruction

Schedule: **Wednesday 20.00-21.00**

Unit Four: Polynomials and Probability

Fee: HK\$700 per student (including course material)

Duration: 4 hours of instruction

Schedule: **Wednesday 20.00-21.00**

Course Code: HKDM-09-10

NOTE:

- **Schedule is subject to change according to students availability**
- **Additional workshops may be scheduled subject to demand**
